The Three Rs of Revision

Refine it

Make sure you have an overview of the full course so you know what to revise.

Based on past assessments identify the areas you need to focus on. Use a PLC.

Plan what you will revise and when. Spread out study over time. Create a calendar.

DON'T leave it until the last minute, plan to cover only areas you like and make your plan unrealistic.

Revis(e)it

Combine text and images.

Question on the front, answer on the back.

Condense text to a sentence then key words.

Spider diagram with images and text.

Write as much as you can on a blank page.

Five minutes per chunk. Write...

DON'T copy text, highlight text, underline text and re-read text

Review it

Test yourself using flash cards.

Complete multiple choice quizzes.

Complete past exam questions and papers.

English

<p>Week 10 30-03-26</p>	<p>Catholic Christianity: Sin and Forgiveness</p> <ol style="list-style-type: none"> Catholic beliefs about salvation Catholic beliefs about hell The nature of the Church <p>The Church and salvation</p>	<p>Keywords:</p> <ul style="list-style-type: none"> Salvation Forgiveness <ol style="list-style-type: none"> What is the meaning of salvation? What is the role of grace and human freedom in redemption? How do Catholics believe the life, death, resurrection and ascension of Jesus saves them? What is the meaning of free will? What is hell? Are the ideas of hell and God's unconditional love and mercy compatible? What are the four marks of the Church? Why do Catholics call Mary a model of the Church? What is the meaning of the 'Church as the Body of Christ' and 'the people of God'? Why does the Catholic Church believe that there is no salvation outside of the Church? <p>c) Explain Catholic teaching about salvation. [8]</p>	<ol style="list-style-type: none"> Know and be able to explain how salvation history influences Catholic beliefs on redemption. Know John Hick's argument about God's love and mercy, and how this compares with the views of some Christian traditions and Catholics. Consider how the four marks of the Church help bring salvation and forgiveness for sins to Catholics. Know the qualities of Mary Catholics try to emulate and how this is done. Know and consider how the Church leads to and helps people achieve salvation, and if being outside of the Church prevents people from receiving salvation. <p>Practice questions:</p> <ol style="list-style-type: none"> What do Catholics mean by Eucharist? Describe the differences between crime and sin. [5] Explain Catholic teachings on forgiveness. [8] Explain Catholic teachings on capital punishment. [8] 'Capital punishment is a fair punishment for crime.' [15] <p>Use the revision booklet provided in class.</p>
<p>Week 11 06-04-26</p>	<p>Catholic Christianity: Sin and Forgiveness</p> <ol style="list-style-type: none"> Features of a Church building The sacraments Evangelisation <p>Evangelisation in Britain</p>	<p>Keywords:</p> <ul style="list-style-type: none"> Eucharist Evangelisation <ol style="list-style-type: none"> What are the sacred objects found within a church? How do these objects reflect the Churches belief in salvation? What are the architectural features of a church and how do they reflect belief in salvation? What are the seven sacraments? How are they linked to salvation? 	<ol style="list-style-type: none"> Know and consider how the altar and baptismal font, in particular, reflect the Churches beliefs in salvation. Be able to explain and consider why the Eucharist is considered the most important sacraments, with reference to it being described as the source and summit of Christian life. Compare and contrast with the importance of other sacraments. Know the quote from <i>Matthew 28:19-20</i> (the great commission). Consider how

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
		<p>Why is the Eucharist described as the 'source and summit of Christian life'?</p> <p>3. What is the meaning of evangelisation? How is evangelisation linked to the great commission (<i>Matthew 28:19-20</i>)? What is the 'new evangelisation' written about by Pope Francis in <i>Evangelii Gaudium</i>? How can evangelisation be carried out locally, nationally and globally?</p> <p>4. What are the benefits and challenges of evangelising in Britain today? How does living in a multifaith society change evangelisation? How do the laws, festivals and traditions of Britain reflect its Christian history?</p> <p>d) 'People should not evangelise in a society where there are many religions.'</p> <p>Discuss this statement showing that you have considered more than one point of view. (You must refer to religion and belief in your answer.) [15]</p>	<p>Catholics can fulfil the great commission of Jesus today on a local, national and global level.</p> <p>4. Know the statistics on religious identity from the 2001 and 2011 censuses and consider how this changes the role of evangelisation.</p> <p>Practice questions:</p> <p>a) What do Catholics mean by evangelisation?</p> <p>c) Explain how the features of a Catholic church reflect salvation. [8]</p> <p>b) Describe the architectural features of a Catholic church. [5]</p> <p>d) 'The Eucharist is the most important sacrament.' [15]</p> <p>b) Describe different ways Catholics can evangelise. [5]</p> <p>b) Describe the challenges of evangelising in Britain today. [5]</p> <p>c) Explain Catholic teachings on evangelisation. [8]</p> <p>Use the revision booklet provided in class.</p>
Week 12 13-04-26	<u>Exam Practice</u>	<p>Download past paper questions.</p> <p>Complete each component under times conditions and mark it yourself with the mark scheme</p>	<p>https://www.eduqas.co.uk/qualifications/religious-studies-gcse/#tab_pastpapers</p> <p>Religious Studies Route B Component 1 Foundational Catholic Christianity Component 2 Applied Catholic Theology Component 3 Judaism</p>

<p>Week 1</p> <p>19th January</p> <p>2026</p>	<p>Revise section 1.7</p> <p>Trades, employment and careers</p> <p>Read through the work you completed in class, saved in your construction folder.</p>	<p>Revise the following trades-</p> <ul style="list-style-type: none"> -bricklaying -stonemasonry -plastering -carpentry and joinery electrical -installation plumbing installation -painting and decorating -flooring and tiling. 	<p>Understand what each trade does-</p> <p>Works from plans</p> <p>What tools they use</p> <p>What materials they use</p> <p>What do they install/ what is their finished product?</p> <p>What PPE (personal protective equipment) do they use?</p> <p>www.goconstruct.org</p>
<p>Week 2</p> <p>26th January</p> <p>2026</p>	<p>Revise section 1.1</p> <p>The sector</p> <p>Professional and managerial roles and responsibilities associated with the built environment sector.</p> <p>Read through the work you completed in class, saved in your construction folder.</p>	<p>Revise the following professional construction roles-</p> <ul style="list-style-type: none"> -designer/architect -civil/structural engineering -contracts manager and site manager -surveyor -quantity surveyor. 	<p>Know the professional roles and be aware of the responsibilities of each regarding the design and construction of a project through to its completion and handover.</p> <p>www.goconstruct.org</p>
<p>Week 3</p> <p>2nd February</p> <p>2026</p>	<p>Buildings and structures.</p> <p>Infrastructure and civil engineering products.</p> <p>Building services engineering.</p>	<p>Revise your homework task based on the following.</p> <p>Understand the main types of buildings and structures covered within the sector: residential and non-residential buildings, bridges and roads.</p> <p>You should be aware of the following facilities and systems: roads, railways, bridges, tunnels</p> <ul style="list-style-type: none"> -water supply and sewerage systems -electrical grids -telecommunications. <p>www.goconstruct.org</p>	<p>You should be aware of the function of the following services in buildings:</p> <ul style="list-style-type: none"> • mechanical services, including escalators and lifts, heating, ventilation, air conditioning. • electrical services, including energy supply, lighting and low voltage (LV) systems, communication lines, telephones and IT networks, fire detection and protection, security and alarm systems. • services that support public health, including plumbing for water supply, and domestic hot water, drainage of wastewater

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
			(sewage) and stormwater drainage.
Week 4 9th February 2026	Revise section 1.8 Health and safety Read through your homework task based on the following. Risks for employees, employers and the public during construction and the built environment projects. Following procedures and carrying out risk assessments.	You must understand construction hazards- -working at height, manual handling and slips, trips and falls. -employers have the responsibility for the safe operation of sites and may be held to account in the case of accidents or incidents. -the public may be at risk when close to a construction site, or if they gain access to the site, from harmful materials and site traffic.	Revise risk assessments- Hazard- identify the hazard Risk- what are the risks associated with the hazard? Control measures- how can you control/minimise the risks? Practice completing risk assessments for construction task. https://www.hse.gov.uk/involvement/riskassessments.htm
Half Term Revision 16-20 February	Health and safety	Risks for employees, employers and the public during construction and the built environment projects.	Understand that construction sites are hazardous environments with many risks: • workers are at risk from heavy construction equipment and vehicles, working at height, manual handling and slips, trips and falls • employers have the responsibility for the safe operation of sites and may be held to account in the case of accidents or incidents • the public may be at risk when close to a construction site, or if they gain access to the site, from harmful materials and site traffic.

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
Week 5 23rd February 2026	Revise section 1.8 Safely working with gas, water and electricity. Working at height and in enclosed spaces. Safety at Work Act Control of Substances Hazardous to Health (COSHH) regulations.	Read over your health and safety booklet. Understand what regulations cover each topic.	Revise gas safety- https://www.hse.gov.uk/gas/domestic/newschemecontract.htm Revise working at height regulations- https://www.hse.gov.uk/work-at-height/introduction.htm Revise HASAWA- https://www.hse.gov.uk/legislation/hswa.htm Revise COSHH regulations- https://www.hse.gov.uk/coshh/basics/whaticoshh.htm
Week 6 2nd March 2026	Revise section 1.4 Technologies and materials	Revise the document based on tools, technologies and materials used in the construction and built environment sector: • main elements and components of low-rise buildings • main materials involved in constructing walls, installing building services, fitting roofs and finishing interiors • renewable technologies and materials, including heat pumps, wind turbines and solar panels.	Research renewable technologies and materials, including heat pumps, wind turbines and solar panels Understand the main principles and benefits of their use- <ul style="list-style-type: none"> • Solar energy • Wind turbines • Heat pumps • Water.
Week 7 9th March 2026	Revise section 1.3 Types of building and structure	Revise the features and characteristics of: • different forms of infrastructure construction • low-rise- residential dwellings, commercial buildings, industrial buildings, agricultural buildings, community buildings, religious buildings, recreational buildings.	Explain the features and characteristics of the following- <ul style="list-style-type: none"> • Different forms of infrastructure construction • Residential dwellings • Commercial buildings • Industrial buildings • Agricultural buildings • Community buildings • Religious buildings • Recreational buildings

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
Week 8 16th March 2026	Revise section 1.2 The Built Environment life cycle	Revise the built environment life cycle, specifically: <ul style="list-style-type: none"> • raw material extraction • manufacturing • construction • operation and maintenance • demolition • disposal, reuse or recycling. 	Understand: <ul style="list-style-type: none"> • waste materials may be sent directly to landfill or salvaged for reuse or for recycling • waste materials can be retained on site in embankments and landscape bunding • construction can produce a significant amount of waste so there are benefits to be gained from encouraging more reuse or recycling, • sustainable construction methods may include specifying materials that are sustainable and renewable from managed sources.
Week 9 23rd March 2026	Revise section 1.5 Building structures and forms	Revise the following building structures and forms: <ul style="list-style-type: none"> • cellular constructions • rectangular frame constructions • portal frame constructions • heritage and traditional methods. 	Explain where cellular construction forms are used and why. Explain the terminology of the components of a portal frame detail drawing: <ul style="list-style-type: none"> • columns on base plates • rafters • apex and knee details • eaves beam • wind bracing • cold formed sections and connections.
Week 10 30th March 2026	Revise section 1.6 Sustainable construction methods understand issues related to sustainable construction methods: The environmental, financial, cultural and social benefits of sustainable construction methods. Pollution and the preservation of the natural environment and natural habitats.	Revise the benefits of using sustainable construction methods- financial benefits, cultural and social benefits. You should know and understand that construction methods should take account of factors including pollution, preservation of the natural environment and natural habitats.	Explain- financial benefits: <ul style="list-style-type: none"> • minimising waste • reducing energy consumption • improving water efficiency • reducing operating costs • optimising the life cycle of buildings. cultural and social benefits: <ul style="list-style-type: none"> • protection of the environment • helps avoid the depletion of natural resources • improving environmental quality may: <ul style="list-style-type: none"> • improve occupants' comfort • create an aesthetically pleasing environment • improve air quality • improve productivity.

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
<p>Week 11</p> <p>Easter</p> <p>6th April 2026</p>	<p>Sustainable construction methods</p> <p>understand issues related to sustainable construction methods:</p> <ul style="list-style-type: none"> • planning permission, brownfield sites and greenfield sites. 	<p>Revise planning permission-</p> <ul style="list-style-type: none"> • planning permission is a system that enables Local Planning Authorities (LPA) to control the development of the built environment in their area. <p>Revise the characteristics, benefits and drawbacks of greenfield sites-</p> <ul style="list-style-type: none"> • they have not been built upon previously • they tend to be cheaper to develop, subject to legal and planning constraints. • infrastructure works, including new roads and utility connections must be taken into account. 	<p>understand the characteristics, benefits and drawbacks of brownfield sites.</p> <ul style="list-style-type: none"> • they have been used before and tend to be disused or derelict land • existing buildings may have to be demolished and there may be clean-up costs for land decontamination • redevelopment of brownfield sites can clean up environmental health hazards and eyesores • access roads, drainage and services may already be available onsite, reducing the cost of a new development. <p>https://hytek.com/resources/brownfield-sites-for-a-new-construction-what-they-are/</p>

Exam date is Wednesday 06th May 2026 A.M.

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
Week 1	Financial Documents	<ul style="list-style-type: none"> Types of financial documents: purchase orders, delivery notes, goods received notes, invoices, credit notes, statements of account, remittance advice slips, receipts. Importance of accuracy when these documents are being used. Importance of accurate financial documents and record-keeping to business accounting Payment methods: cash, credit cards, debit cards, direct debit, payment technologies. Impact on customers and enterprises of using different payment methods 	<p>Read through pages 20-24 of your revision guide for financial documents. Then complete the now try this section at the end of each page.</p> <p>Read through pages 25-26 on payment methods. Then complete the now try this section at the end of each page.</p> <p>Revision guide can be bought here if you haven't already got a copy of this...</p> 
Week 2	Payment Methods	<ul style="list-style-type: none"> Advantages and disadvantages of the different payment methods such as debit card, credit card, cash, direct debit and payment technologies. Factors impacting choice of payment method e.g. cost, lifestyle, ability to pay. 	Pages 25 and 26 of revision guide.
Week 3	Revenue and Costs	<ul style="list-style-type: none"> Revenue/turnover. Start-up and running costs. Assets and liabilities Fixed and current 	<p>Read page 27 and 32 of your revision guide. Then complete the now try this section at the end of each page.</p> <p>Read pages 64- 66 for exam advise on how to tackle the component 3 exam.</p> <p>Additional assessment practise can be purchased here...</p> 

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
Week 4	Balance Sheets	<ul style="list-style-type: none"> • Balance sheet (statement of financial position): shows the financial performance of an enterprise at a point in time: • fixed (non-current) and current assets • Profit and loss account (statement of comprehensive income): shows the profit or loss of an enterprise over time: <ul style="list-style-type: none"> • Revenue • cost of sales • expenses • gross profit • net profit (profit for the year). • working capital (net current assets) • long term (non-current) and current liabilities • debtors (accounts receivable) and creditors (accounts payable) • equity 	<p>Read pages 28-31, followed by 33-39 in your revision guide. Then complete the now try this at the end of each page.</p> <p>Read pages 67- 69 for exam advise on how to tackle the component 3 exam.</p>
Week 5	Ratios	<ul style="list-style-type: none"> • Difference between cash and profit. • Difference between liquidity and profitability. • Calculate profitability ratios from given formulae: <ul style="list-style-type: none"> ○ gross profit margin percentage (GPM) = (gross profit ÷ revenue) × 100 ○ net profit margin percentage (NPM) = (net profit ÷ revenue) × 100. • Calculate liquidity ratios from given formulae: <ul style="list-style-type: none"> ○ current ratio = current assets ÷ current liabilities 	<p>Read pages 40-44 in your revision guide. Then complete the now try this at the end of each page.</p>

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
		liquid capital ratio = (current assets – inventory) ÷ current liabilities	
Week 6	Budgeting	<ul style="list-style-type: none"> • Expenditure and revenue budgets: <ul style="list-style-type: none"> ○ capital expenditure ○ cash ○ labour ○ marketing/promotion ○ overheads ○ production ○ purchases/material ○ revenue/sales. • Difference between budgeting and budgetary control (checking performance against plan). • Impact of favourable and adverse variances 	<p>Read pages 45-48 of your revision guide. Then complete the now try this at the end of each page.</p> <p>Work your way through the sample assessment material and answer the questions you are able to so far, based on content covered up to this point. Use the mark scheme to mark your answers and correct this.</p> <p>Sample assessment material can be found using the following QR code...</p> 
Week 7	Cash Flow	<ul style="list-style-type: none"> • Cash flow forecast: predicted inflows/receipts, outflows/payments, net inflows/outflows, opening and closing balances, surpluses, deficits. • Purpose of cash flow forecasts: to identify money coming in and going out of the enterprise over time, to determine the impact of timings of inflows and outflows and to determine positive and negative liquidity and make business decisions. • Difference between forecasted and actual cash flows. 	<p>Read pages 49-59 of your revision guide. Then complete the now try this section at the end of each page.</p> <p>Complete activities on pages 71-73 of your revision guide. Check your answers (page 78) and correct any areas for development.</p>

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
		<ul style="list-style-type: none"> • Cash flow problems: cash surpluses, cash deficits. • Suggested solutions to problems: increasing revenue, selling off unused assets/inventory, chasing debtors for monies owed, cutting costs, delaying payment to suppliers, reducing credit period offered to customers, cutting back or delaying expansion plans, paying off debts and investment 	
Week 8	Break Even	<ul style="list-style-type: none"> • Fixed, variable and total costs, and total revenue. • Break-even point, margin of safety, area of profit and area of loss. • Importance to an enterprise of breaking even. <p>Strengths and limitations of break-even analysis</p>	Read pages 54-58 in your revision guide. Complete the now try this activity.
Week 9	Internal Sources of Finance	<ul style="list-style-type: none"> • Different needs for business finance • Personal sources e.g. savings, credit and borrowing from friends/family. • Retained profits • Sale of assets 	Read page 59 and 60 of revision guide. Complete 'now try this' activities.
Week 10	External Sources of Finance	<p>Long term external finance such as:</p> <ul style="list-style-type: none"> • Mortgages • Selling shares • Taking on new partners <p>Medium external finance such as:</p> <ul style="list-style-type: none"> • Loans • Leasing • Business angels <p>Short term:</p> <ul style="list-style-type: none"> • Overdrafts • Trade credit • Crowdfunding 	Read pages 61-63. Complete the 'try this now' tasks.

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
Week 11	Recap of Marketing	4 Ps including: <ul style="list-style-type: none"> • Product life cycle • Pricing strategies • Place (distribution channels) • Promotion methods 	Read pages 6-18 of the revision guide. Complete the activities. Use exercise book and past papers.
Week 12 Exam date is Wednesday 06 th May A.M.	Full component 3 revision Exam date is this week.	Go through areas of weakness based on your sample assessment practise. Go over formulas needed in the exam.	Continue to practise questions on both sample assessments, plus any questions in your revision guide.

		Types of movement at different joints including flexion, extension, adduction, abduction, circumduction, rotation.	
Week 2	<ul style="list-style-type: none"> - Muscular System Muscular KO	<p>Structure and function of muscular system</p> <p>Types of muscles: smooth, cardiac, skeletal, involuntary, and voluntary.</p> <p>Names of major muscles: biceps, triceps, deltoid, pectorals, latissimus dorsi, gluteals, quadriceps, hamstrings, gastrocnemius.</p> <p>Links of major muscles to types of movement at different joints including flexion, extension, adduction, abduction, circumduction, rotation.</p> <p>Muscle fibre types: slow/fast type I, type II. Characteristics and their function within a variety of sports and aerobic and anaerobic exercise.</p> <p>The function of ligaments and tendons.</p>	<p>2022 Exam Paper Qs 2b, 3f, 4aii, 4aiii, 4e,</p> <p>Bitesize Muscular</p> <p>Knowledge Check Muscles</p>
Week 3	<ul style="list-style-type: none"> - Cardio-Respiratory System Cardio Respiratory KO	<p>Structure of the heart: atria, ventricles, pulmonary and systemic circulatory systems.</p> <p>Functions transportation of nutrients, oxygen and waste products, thermoregulation, vasodilation & vasoconstriction</p> <p>Cardiac values at rest and during exercise; cardiac output, heart rate, stroke volume, blood pressure: systolic, diastolic, ..</p> <p>Structure of the respiratory system to include trachea, bronchus, bronchioles, alveoli, diaphragm</p> <p>Functions: gaseous exchange & oxygenation of blood.</p> <p>Lung volumes: vital capacity, minute ventilation, breathing frequency (rate), tidal volume, values at rest and exercise</p>	<p>2022 Exam Paper Qs 1b, 1c, 3ei</p> <p>Bitesize CV & Resp</p> <p>Bitesize CV</p>

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
Week 4	<p>Energy Systems & Effects of exercise</p> <p>Energy Systems KO</p>	<p>An Overview of aerobic and anaerobic exercise: creatine phosphate, lactic acid, aerobic characteristics, oxygen debt. Anaerobic threshold and links to intensity of exercise.</p> <p>The characteristics and factors affecting aerobic/anaerobic exercise including intensity and duration.</p> <p>Short term effects: linked to intensity, duration, including increased heart rates, tidal volume, temperature, production of waste products.</p> <p>Long term effects: adaptations of the body systems dependant on intensity and duration to include bone density, increased elasticity of muscles, hypertrophy, improved energy systems, increased stroke volume, decreased resting heart rate, blood pressure, decreased breathing frequency, increased vital capacity.</p> <p>The links of the intensity and duration of activity to different short and long term effects of exercise. The effects of exercise on social and mental well-being as well as on long term physical benefits.</p>	<p>2022 Exam Paper Qs 1ai, 1aii & 1c</p> <p>Bitesize Aerobic & Anaerobic Systems</p> <p>Bitesize Long and Short effects of exercise</p>
Week 5	<p>Health, fitness and Wellbeing</p> <p>Health Fitness & Wellbeing KO</p> <p>Diet & Nutrition KO</p>	<p>Definition and knowledge of the relationship between health, fitness and well-being.</p> <p>Benefits of an active, healthy lifestyle. Lifestyle choices and adherence, links to motivation.</p> <p>The health benefits from exercising including physical, social and mental well-being benefits. The relationship between physical, social and mental health.</p> <p>Risks: stress, hypertension, obesity, atherosclerosis, poor self esteem, poor body image and self-confidence.</p> <p>Energy balance equation; positive, negative, balanced.</p> <p>The functions of nutrients; protein for tissue growth/repair, carbohydrate for energy, fats for energy/insulation, minerals for bone growth, water for hydration. The role of nutrients in different intensities of exercise to include carbohydrates, proteins, fats, vitamins and hydration.</p> <p>The dangers of under and over hydrating.</p>	<p>2022 Exam Paper Qs 1ai, 1aii, 1d, 2c, 2ei, 2eii, 2eiv, 2ev, 2f, 3b, 4ci, 4cii, 5d, 5e</p> <p>Bitesize Health, fitness & Wellbeing</p>

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
		Tools to measure: Other tools: health questionnaires, monitoring blood pressure, heart rate, calorie input and expenditure	
Week 6	Health Training and exercise (Physical Training) Components of fitness KO Fitness Tests KO Principles of Training	<p>Components of fitness: Cardio vascular endurance, muscular endurance, muscular strength, flexibility, body composition, agility, speed, power, co-ordination, balance, reaction time.</p> <p>The importance of measuring fitness and health to include: identifying strengths and weaknesses, baseline, current state, improvement, comparisons, motivation.</p> <p>Fitness Tests: the multi stage fitness test/coopers 12 min run, abdominal curl/press up test, hand grip/1 rep max, sit and reach, skin fold callipers/body fat, Illinois agility run, 30/50m sprint, vertical jump, stork balance, alternate hand throw, ruler drop test.</p> <p>The importance of protocols, concepts of reliability and validity.</p> <p>Training Methods: Principles of Training: Specificity, Progression, Overload (FID) & Variance</p>	2022 Exam Paper Qs 1ai, 1a _{ii} , 1d, 2c, 2ei, 2e _{ii} , 2e _{iv} , 2ev, 2f, 3b, 4ci, 4c _{ii} , 5d, 5e Bitesize Principles of Training Bitesize Training Methods
Week 7	Movement Muscle Contractions KO Planes & Axis KO Levers KO	<p>Isotonic contractions including eccentric, concentric, isometric contractions.</p> <p>Antagonistic muscle action – agonists (prime movers), antagonists.</p> <p>The classification of levers, with focus on the joints and leverage systems at the shoulder, elbow, knee and hip.</p> <p>The mechanical advantages of different classes of levers. Fulcrum, load and effort.</p> <p>Sagittal, and frontal and transverse planes</p> <p>Axes of movement: sagittal, frontal and vertical and the movements that occur through these axes.</p>	2022 Exam Paper Qs 2a, 2d, 4ai, 4b, 5c Bitesize Movement Analysis

Week beginning	Topics for revision	Re-visit this work	Do this to boost your grade
		Movements at joints during the actions of running, throwing, jumping and kicking.	
Week 8	Psychology Goal setting, SMART Targets information processing & Guidance . SMART KO Information Processing KO Guidance KO	How goal-setting can impact upon health, well-being and performance including focusing attention, improving effort, concentration, and helping develop strategies for success. SMART targets to support goal setting: specific, measurable, agreed, realistic and time phased targets. Information processing model including: input, decision making, output and feedback. The function of feedback including knowledge of results and knowledge of performance. The types of guidance including verbal, visual, manual & mechanical. The relationship of guidance and feedback to stages of learning - cognitive, associative, autonomous.	2022 Exam Paper Qs 3 (b) 3(a) I & ii Bitesize Goal Setting Bitesize Guidance Bitesize Feedback
Week 9	Psychology Motivation & mental preparation. A Skilled performance, classification of skill and types of practice. Classification of Skill KO Motivation & Mental Prep KO	Mental Rehearsal and Visualisation and its influence on motivation. Internal and external motivators. Characteristics of a skilled performance: technique, consistency, accuracy, efficiency, effectiveness, confidence, control and aesthetics. Classification of skills along a continuum including: basic/complex, open/closed and self/externally paced. The links between practice, the learner and the type of skill – whole/part, fixed/varied practice. Make connections between the classification of skill and type of practice.	2022 Exam Paper Qs 1(e) ii & iii 3c(i) & 3c (ii) 5(a) Bitesize Mental Preparation Bitesize Classification of skill
