### WHAT IS IT?

Studying Spanish at AS and A2 will deepen your knowledge and understanding and bring you one step closer to becoming proficient in the language. The course will also allow you to investigate and appreciate various aspects of Spanish culture via the media of contemporary film and classical literature. Spanish is fast becoming one of the most important languages in the world, making it relevant and necessary in business and politics. Candidates with Spanish skills are valued by employers, indeed, some employers prefer candidates with language skills as this shows well developed and sophisticated communication skills, as well as superior thinking and problem solving skills.
