Transition Task- Religion in my Local Community

Welcome to the RE department at Maricourt Catholic High School!

Have you ever considered how religion is celebrated in your local community? Your task is to find out about a place of worship in your local area or within the wider area of Liverpool. You can present your work any way you like – you could make a poster, you could produce a PowerPoint or even present a photo journal.

Guiding questions:

1. What churches and other places of worship are there in your local community? Where are they? Choose one place of worship and explain why people attend it.
2. How does your local parish church serve the community? A parish newsletter will help you find out this information (you can find these on the church social media channels or collect one from the church).
3. Do you know of any other organisations that help people in the local community? Who are they and how do they help others
